

CUESTIONARIO DE BÚSQUEDA DE SOCIOS

SUBPROGRAMA	LIFE Environment and Resource Efficiency Project application
ÁREA PRIORITARIA	Water, floods and drought
PRIORIDAD TEMÁTICA	Planning and establishment in urban and rural areas of natural water retention measures that increase infiltration, storage of water and remove pollutants through natural, or "natural-like" processes and thereby contribute to the achievement of the WFD and the Floods Directive (FD) objectives and to drought management in water scarce regions.
TEMA DEL PROYECTO	The SmartRAIN system shall be modular and versatile in order to potentially be adapted to different environmental conditions (climate, pollution...) throughout Europe as well as will be integrated in buildings as a complement to the existing water infrastructure and new infrastructures.
TÍTULO	Smart and eco-efficient rainwater harvesting system against urban scarcity water (SmartRain)
DESCRIPCIÓN	The SmartRAIN system will be implemented in Barcelona and Santander which are representative cities of the two different climatic regions in Europe: Mediterranean (Barcelona) and Oceanic (Santander). Another important reason of these sites is that they are representatives of another potential markets. For example an hotel can be considered like a little urbanization neighbourhood, while the Santander Campus, with gardens and restaurants can be considered, as a model, close to a mall or a stadium.
OBJETIVO DEL PROYECTO	The OVERALL OBJECTIVE of the SmartRAIN project is to design and to set-up a cost-effective and sustainable system to foster and optimize roof rainwater harvesting and re-use in urban environments.
PERFIL DE LOS SOCIOS REQUERIDOS	The Project was previously submitted in a LIFE call. The project passed all the evaluation criteria but was not funded. It is required a coordinator partner national or international (preferable) experienced in European projects and able to provide specific contributions to valorize the project to submit again. Portuguese partners will be well received.
SOCIOS NACIONALES O DE OTROS ESTADOS MIEMBROS	University of Girona Inedit University of Barcelona University of Cantabria
ENTIDAD	Universitat de Girona
PERSONA DE CONTACTO	Dra Àngels Olivella Costa
