

# Summary of presentations/discussion on addressing ghg emissions from Deforestation

## Deforestation

Global concern  
SD/Poverty issue for DCs  
20% of global emissions  
Source of Vulnerability  
Complex issue:  
Nat. Circumstances (differences even within countries)  
Drivers  
Cross-sectoral issue

## Challenges

Definitions (deforestation, degradation)  
Tech/Meth  
Information/inventories

## Opportunities

Co-benefits  
Info and experiences available  
Enhanced DC participation in the climate regime

## Incentives 1

UNFCCC  
KYOTO?  
Voluntary commitments (sectoral, national..)  
Incentives = DC commitments??  
CDM  
PMs, projects,  
Market mech, others  
Sustained effort

## Assoc. 2

**Accounting tech/meth/other issues**  
Baselines  
Sovereignty  
Permanence  
Leakage  
Definitions  
Existing framework?  
etc
