

**Seeking partnership for LIFE projects on the topics related to conservation of bird species of Bird Directive Annex I, farmland birds or Management of Natura 2000 sites**

The Laboratory of Ecosystem and Biodiversity Management, Department of Agriculture, Crop Production and Rural Environment, University of Thessaly, Greece, is interested in the framework of LIFE Nature and Biodiversity 2020 Call to collaborate with other bodies, institutions or NGOs in submitting joint proposal in topics related to conservation of bird species of Bird Directive Annex I, farmland birds, Management of Natura 2000 sites and relevant issues.

The Laboratory has coordinated a LIFE project concerning the Lesser Kestrel conservation in Greece which received a 2018 Award of Best LIFE Nature projects.
